Easily locate articles or refine your search by clicking on Categories and Tags.

In this search example the tags Hospital, Get Advice About..., Planning and Text have been highlighted. The database filters through all files and finds the related article(s).

Need to refine further? Click on additional tags.

Search Hints - Category / Tags “Top to Bottom”

- 1 Start with the topical category your news story falls into (Home, Health, Weather, etc) and choose appropriate tag(s).
- 2 Next, move to the Content Format category and select tag (text, video, etc).
- 3 Last, go to Content Genre category (Factoid, Get Advice About..., Get Help, Insurance, etc...) and select appropriate tag(s).
 - Preview allows you to see your selection pre-download of XML file. Default returns you to article listing page.
 - Ready to download? Simply click the title of your selected article.
